

ASSET MANAGEMENT COUNCIL

ASSET MANAGEMENT **FUNDAMENTALS** ONLINE COURSE

These are **live online**
interactive sessions
run over **two half-**
days from 9am -
1pm

OBJECTIVES OF THE COURSE

This course provides a thorough overview of both the technical and financial fundamentals of asset management. By the end of this course, you will be able to:

- Define asset management and its role in business
- Identify the principles that underpin asset management
- Identify available asset management tools and techniques that are applicable within your organisational context
- Identify opportunities for you to improve both your personal and organisational asset management capability

CERTIFIED ASSOCIATE IN ASSET MANAGEMENT (CAAM)

This course provides your gateway into an asset management career. To recognise and quantify your learning, an online exam is initiated on the day of the course. Should you choose to complete the exam, pass the exam, and agree to comply with a Code of Ethics, you will be certified as a Certified Associate in Asset Management (CAAM) – enabling you present evidence to your current and future employers of your personal asset management capability. Your CAAM is your first step toward a career in asset management.

YOUR TRAINERS

Your trainers represent the best asset management experience in Australia. A list of attributes that all AMF trainers have may be found below, or you may visit amcouncil.com.au for each trainer's full bio.

- Certified Fellows in Asset Management (CFAM) and have worked in asset management roles for over 20 years
- Have conducted numerous asset management reviews of organisations in various industries both nationally and internationally
- Have developed and conducted the formal training of hundreds of engineering, financial and management-related staff across numerous industries

WHO SHOULD ATTEND

- Anyone working in, or who wants to work in, infrastructure, asset management, financial management, maintenance engineering or procurement management
- Anyone who requires an introduction to the key technical and financial principles that underpin effective asset management
- Anyone who wishes to improve the management of assets within their organisation

About the Asset Management Council

As an internationally recognized organisation at the forefront of asset management knowledge and development, the Asset Management Council provides independent information and guidance on asset management across a multitude of industries and professional roles, both in Australia and overseas.

The Asset Management Council is a fully industry supported body and is considered by many to be a 'thought leader' in asset management, both nationally and internationally.

The Asset Management Council is a not-for-profit organization, a Technical Society of Engineers Australia and a founding member of both the Global Forum on Maintenance and Asset Management (GFMAM) and the World Partners in Asset Management (WPiAM). The Asset Management Council's objectives are to:

- Strengthen and enhance the asset management, maintenance engineering and financial capabilities of asset management practitioners and organisations
- Promote excellence in the practice of asset management and maintenance engineering
- Promote practitioner participation in and contribution to activities of their Company
- Facilitate linkages at national and international levels
- Facilitate active participation from other disciplines and professions
- Encourage research and increase the asset management body of knowledge

Course Content

The content of the Asset Management Fundamentals course includes:

- Asset Management Principles
- Asset Management System
- Stakeholder Requirements and Asset Management Objectives
- Leadership and Culture
- Asset Management Technical & Financial Processes
