

ASSET MANAGEMENT COUNCIL

JOIN THE ASSET MANAGEMENT COUNCIL

Why Become a Student Member?

As a student member, you'll gain access to internships, mentoring and research support to build real-world experience in asset management. Present your work to industry leaders, contribute to conferences and publications, and grow your network through events, Special Interest Groups, and a members-only LinkedIn page. The Career Planning Tool and the Asset Management Body of Knowledge Library supports your academic and career journey, while programs like the Asset Management Mentoring Match, and the AMCouncil's study tours help you stand out and succeed.

What is the Asset Management Council?

We're a not-for-profit peak body working to identify, maximise and maintain value in critical assets. We empower students, professionals, and organisations right across the industry spectrum to navigate the asset management journey, ensuring a more sustainable, enriched society.

Connect with jobs and industry leaders

Connect directly with employers, gain real-world experience and build your career through the AMCouncil's exclusive industry links. Access internships and entry-level jobs via a dedicated student job board. Tackle real asset management challenges presented by industry leaders. Get career guidance through mentoring with experienced professionals. Build your network through Local Chapters, Special Interest Groups, and a members-only LinkedIn community.

Discover diverse career paths in asset management

Discover career options in asset management and make informed choices with tailored support. Use the Asset Management Career Planning Tool to map your skills against industry standards, identify gaps and set career goals. Access specialised career advice through the AMCouncil's partnership with various University advisory hubs to better navigate pathways and employer expectations.

Build leadership skills through real experience

Take the lead, share ideas and shape the future of asset management. Join the Young Asset Management Practitioners' (YAMP) Special Interest Group to connect with peers, explore trends and drive initiatives.

Get involved in real-world research and innovation

Get involved in applied research that addresses real-world industry challenges and emerging technologies. Access the Asset Management Body of Knowledge (AMBoK) Library for literature reviews, research planning and trend analysis – aligned with industry needs and opportunities for collaboration.

Earn recognition through awards and showcases

Be recognised for your achievements through awards, showcases and publishing opportunities. The Student of the Year Award and 'Star Student Profile' in the Asset Journal celebrate excellence in asset management. Present your paper or research poster at AMPEAK for the Best Paper Award (or poster), join award panels and review teams to gain industry insights and publishing experience.

Learn from industry experts and fellow students

Stay inspired and industry-ready through conferences, workshops and technical events. Attend the Annual Symposium to explore trends, research gaps and innovations in asset management. Co-author research papers with expert support, aligned to academic publishing standards. Present your work at the annual Research & Industry Day (RAID) to showcase talent and connect with industry. Join study tours for hands-on learning and site visits through the AMCouncil's strong industry partnerships.

How to become a student member

- 1 Go to www.amcouncil.com.au/membership
- 2 Under 'Student Membership' – choose 'Apply Now', then 'Create a New Account'
- 3 Fill out your details, follow the prompts

You're all done!
